Worksite Entered	
Business Name:	Smith's Snackfood Company Ltd
Industry:	Other
Address:	SOUTH AUSTRALIA
Date workplace entered:	19/12/2023 12:00:00 AM

I guangzhao Chen am of the opinion that the PCBU has contravened the WHS legislation relating to:		
Contravention	More information	Was the contravention rectified?
Not maintaining safe systems of work	Employees have raised significant safety concerns regarding the improper handling of strongly irritating substances. The PCBU produces a hot snack product with "flaming hot seasoning" every couple of weeks, the seasoning dispersing across the production area from the seasoning machine. After interviewing 13 workers from the afternoon shift, 11 reported various effects, including sneezing, coughing, eye and skin irritation, runny nose, sore throat, chest discomfort, and difficulty breathing.	No
Not maintaining a safe work environment	Employees have raised safety concerns about an unsafe work environment in the waste hall area. The absence of a proper traffic management plan has led to forklifts and workers sharing the same space, lacking warning signs, floor marks, or an alarming system.	No
