All sections required for new notifications and amendments

New notification

Amendment

If amendment, please provide Notification Number

1. Contact details of the person conducting the business or undertaking

Australian Business Number (ABN)

Australian Company Number (ACN)

SWSA Client Number

Registered name of body corporate (if applicable)

Business registration (trading) name (if applicable)

Name of the individual or contact person for body corporate or emergency service organisation:

Family name

Given name(s)

Title

M/F

Date of birth

Registered business address for body corporate or emergency service organisation (if applicable)

Number

Street

Suburb/town

State/territory

Postcode

Postal address (if different from above)

Telephone

Mobile

Facsimile (optional)

Email address

2. Description of the lead process to be carried out: *(Please select ONE or MORE of the following)*

work that exposes a person to lead dust or lead fumes arising from the manufacture or handling of dry lead compounds

work in connection with the manufacture, assembly, handling or repair of, or parts of batteries containing lead that involves the manipulation of dry lead components or pasting or casting lead

breaking up or dismantling batteries containing lead, sorting, packing and handling plates or other parts containing lead that are removed or recovered from the batteries

spraying molten lead metal or alloys containing more than 5% by weight of lead metal

melting or casting lead alloys containing more than 5% by weight of lead metal in which the temperature of the molten material exceeds 450°C

recovering lead from its ores, oxides or other compounds by thermal reduction process

dry machine grinding, discing, buffing or cutting by power tools alloys containing more than 5% by weight of lead metal

machine sanding or buffing surfaces coated with paint containing more than 1% by dry weight of lead metal

a process by which electric arc oxyacetylene, oxy gas, plasma arc or a flame is applied for welding, cutting or cleaning, to the surface of metal coated with lead paint containing more than 1% by dry weight of lead metal

radiator repairs that may cause exposure to lead dust or lead fumes

- fire assays if lead, lead compounds or lead alloys are used
- hand grinding and finishing lead or alloys containing more than 50% by dry weight of lead metal
- spray painting with lead paint containing more than 1% by dry weight of lead
- melting lead metal or alloys containing more than 50% by weight of lead metal if the exposed surface area of the molten material exceeds 0.1 square metre and the temperature of the molten material does not exceed 450°C
- using a power tool, including abrasive blasting and high pressure water jets, to remove a surface coated with paint containing more than 1% by dry weight of lead metal and handling waste containing lead resulting from the removal
- a process that exposes a person to lead dust or lead fumes arising from manufacturing or testing detonators or other explosives that contain lead
- a process that exposes a person to lead dust or lead fumes arising from firing weapons at an indoor firing range
- Foundry processes involving:
 - melting or casting lead alloys containing more than 1% by weight of lead metal in which the temperature of the molten metal material is more than 450°C
 - or
 - dry machine grinding, discing, buffing or cutting by power tools lead alloys containing more than 1% by weight of lead metal;
- a process decided by SafeWork SA to be a lead process under regulation 393

3. Address of the workplace at which the lead risk work is to be carried out

(if different from the address of the person conducting the business or undertaking)

Address details

Suburb/town

State/territory

Postcode

4. Date of commencement of the lead risk work and proposed completion date

(if the work is short term such as abrasive blasting of lead paint from a structure)

Start date

Completion date

5. Risk control measures to minimise worker exposure *(Please tick to confirm you have attached)*

- Document detailing the risk control measures taken to minimise worker exposure.

Number of workers exposed to lead risk work

6. Declaration requirements

IMPORTANT: There are serious consequences for providing misleading or false information about any matter relevant to your application.

- I consent to SafeWork SA making enquiries and exchanging information with Work Health and Safety regulators in other states, territories or the Commonwealth regarding any matter relevant to this application.
- I consent to SafeWork SA making enquiries and exchanging information with government agencies, in South Australia and in other states or territories or the Commonwealth regarding any matter relevant to this application.
- I consent to SafeWork SA making enquiries and exchanging information with any individuals or non-government agencies, in South Australia and in other states or territories or the Commonwealth regarding any matter relevant to this application.
- I declare that, to the best of my knowledge, the information provided in this application and supporting documentation is true and correct in every particular.
