I Joseph Laurence Snelling am of the opinion that the PCBU has contravened the WHS legislation relating to:

	Alleged Contravention	More information	Was the contravention rectified?
PCBU Alleged Contravention 1	Not maintaining a safe work environment	<p>Workers reported issues with air-conditioning. PCBU on site reported AC repairs were completed 23/10/24 by centre management. There has been no communication with workers about the issue or repairs. There is no formal review process in place to ensure repairs work.</p> <p>In addition to AC issues, members reported a lack of airflow in the site even when the AC is in working order. It is a small space with only one entry</p>	No

		<p>point into the centre. Previously, there was a fan to help with air movement, but this was removed without consultation when the area management changed over. Workers reported the fan assisted significantly with airflow and due to air being stagnant, offensive smells linger and make it difficult to work.</p> <p>Workers also raised concerns about the lighting used in the store generating heat. Workers reported having raised this issue with Lovisa, but have been told there will be no change as all stores are fit out the same.</p> <p>Workers were unaware of a hazard reporting system.</p>
