Industry:	Retail Trade
Address:	7 MAIN ROAD ROBE SOUTH AUSTRALIA 5276
Date workplace entered:	24/01/2024 12:00:00 AM

I Belinda Lee Owens am of the opinion that the PCBU has contravened the WHS legislation relating to:		
Contravention	More information	Was the contravention rectified?
Not maintaining a safe work environment	No air conditioning unit installed on site which leads to heat stress during extreme heat. No hot weather policy. PCBU said control measures during extreme heat include portable AC (front of site only), water, 2-hour rotation on checkouts, extra breaks. Heat concerns raised by workers during December safety meeting requesting AC unit be installed. PCBU stated board reviewing request to install in February. Parts of the store with most extreme heat are front end and deli.	No
Lack of information, training, instruction or supervision	Lack of knowledge regarding reporting hazards. When workers were asked if these issues had been reported through internal systems, most workers were unaware of the reporting mechanisms available. Some stated it was through a physical book in the staff room which was then uploaded to a computer. This book was not in the staff room.	No

	<p>When requests to sight incident report regarding heat, PCBU unable to provide the reports.</p> <p>PCBU stated there is a HSR , however HSR list not displayed at site.</p>
