

Application for a licence for the **STORAGE OF EXPLOSIVES – PREMISES**

*Schedule P (Regulation 10.03)
Explosives Act 1936, as amended*

All information given in and supplied with this application will be treated in confidence

APPLICANTS DETAILS

Full name (applicant)
Use BLOCK letters

Occupation / Position title

Company name

ABN (if applicable)

Physical address

Suburb

Postcode

Postal address, if different from above

Suburb

Postcode

LOCATION OF PREMISES

Situation of premises

Street address (if in a town)

Or otherwise

Section

Hundred of

Attach sketch of premises location giving sufficient detail to enable the premises to be readily located and showing the situation of buildings, roads etc.

CONTENT OF PREMISES

Maximum quantity of nitro-compound explosives to be stored

 kg

Maximum quantity of gunpowder (blasting powder) and small arms nitro-compound to be stored

 kg

Maximum quantity of any other explosive to be stored (excluding detonators)

 kg

Maximum number of detonators to be stored

Detonator size number

Distance separating detonators from other explosives

EXPLOSIVES RECEPTACLE

Are the explosives to be kept in a RECEPTACLE as defined in this document?

Applicable only if not exceeding 30kg

Yes No

If a receptacle, state the purposes for which the building housing is used

Internal dimensions of the receptacle

 X X

State the materials used for:

The construction of the building

The construction of the receptacle

The internal lining and lining fixings

EXPLOSIVES STORE

Are the explosives to be kept in a "STORE" as defined in this document?

Applicable for any quantity up to 60kg

Yes No

If a store, is it within or attached to another building?

Yes No

If YES, is that building used as a dwelling or as living quarters?

Yes No

Internal dimensions of the store

 X X

State the materials used for:

Walls

Roof

Floor

Ceiling

Wall lining

Door

Door lock

Is the door a flush fitting?

Yes No

Is the store mounded?

Yes No

If so, state the nature and height of the mound

 X X

DETONATOR RECEPTACLE

Are the detonators to be kept in a RECEPTACLE as defined in this document?

Applicable only if not more than 30kg

Yes No

If a receptacle, state the purposes for which the building housing is used

Internal dimensions of the receptacle

 X X

State the materials used for:

The construction of the building

The construction of the receptacle

The internal lining and lining fixings

DETONATOR STORE

Are the detonators to be kept in a "STORE" as defined in this document?

Applicable for any quantity up to 60kg

Yes No

If a store, is it within or attached to another building?

Yes No

If YES, is that building used as a dwelling or as living quarters?

Yes No

Internal dimensions of the store

 X X

State the materials used for:

Walls

Roof

Floor

Ceiling

Wall lining

Door

Door lock

Is the door a flush fitting?

Yes No

Is the store mounded?

Yes No

If so, state the nature and height of the mound

 X X

SURROUNDING AREA

Explosives receptacle or store

State the use of the nearest protected work of Class I to the explosives receptacle or store

See definition in this document

What is the distance from the explosives receptacle or store?

State the use of the nearest protected work of Class II to the explosives receptacle or store

See definition in this document

What is the distance from the explosives receptacle or store?

Detonators receptacle or store

State the use of the nearest protected work of Class I to the detonator receptacle or store

See definition in this document

What is the distance from the detonator receptacle or store?

State the use of the nearest protected work of Class II to the detonator receptacle or store

See definition in this document

What is the distance from the detonator receptacle or store?

Attach a plan showing the site of the storage and surrounding buildings, neighbouring premises, roads etc.

DEFINITIONS

Store

Store means a store which is -

- a. exclusively used for keeping explosives
- b. substantially built of brick, stone, iron, concrete or other approved material or excavated in solid rock, earth or mine refuse not liable to ignition
- c. so made, closed and locked as to prevent unauthorised persons from having access to the store and to secure it from danger from without, and
- d. situated at protection distances from protected works.

Receptacle

Receptacle means a receptacle that is-

- a. exclusively appropriated for the keeping of explosives
- b. substantially constructed of wood or other approved material and has no exposed iron or steel inside
- c. provide with strong handles
- d. provide with a closely fitting lid secured by a lock, the hinges and fastenings being constructed of copper, brass or other approved material
- e. housed so as to prevent unauthorised persons having access to the receptacle and so as to provide protection from damage from fire and other causes, and
- f. situated at protection distances from--
 - i. dwellings or shops or other places frequented by the public on the same premises as the receptacle and
 - ii. protected works which are not on the same premises as the receptacle.

Protected work Class I

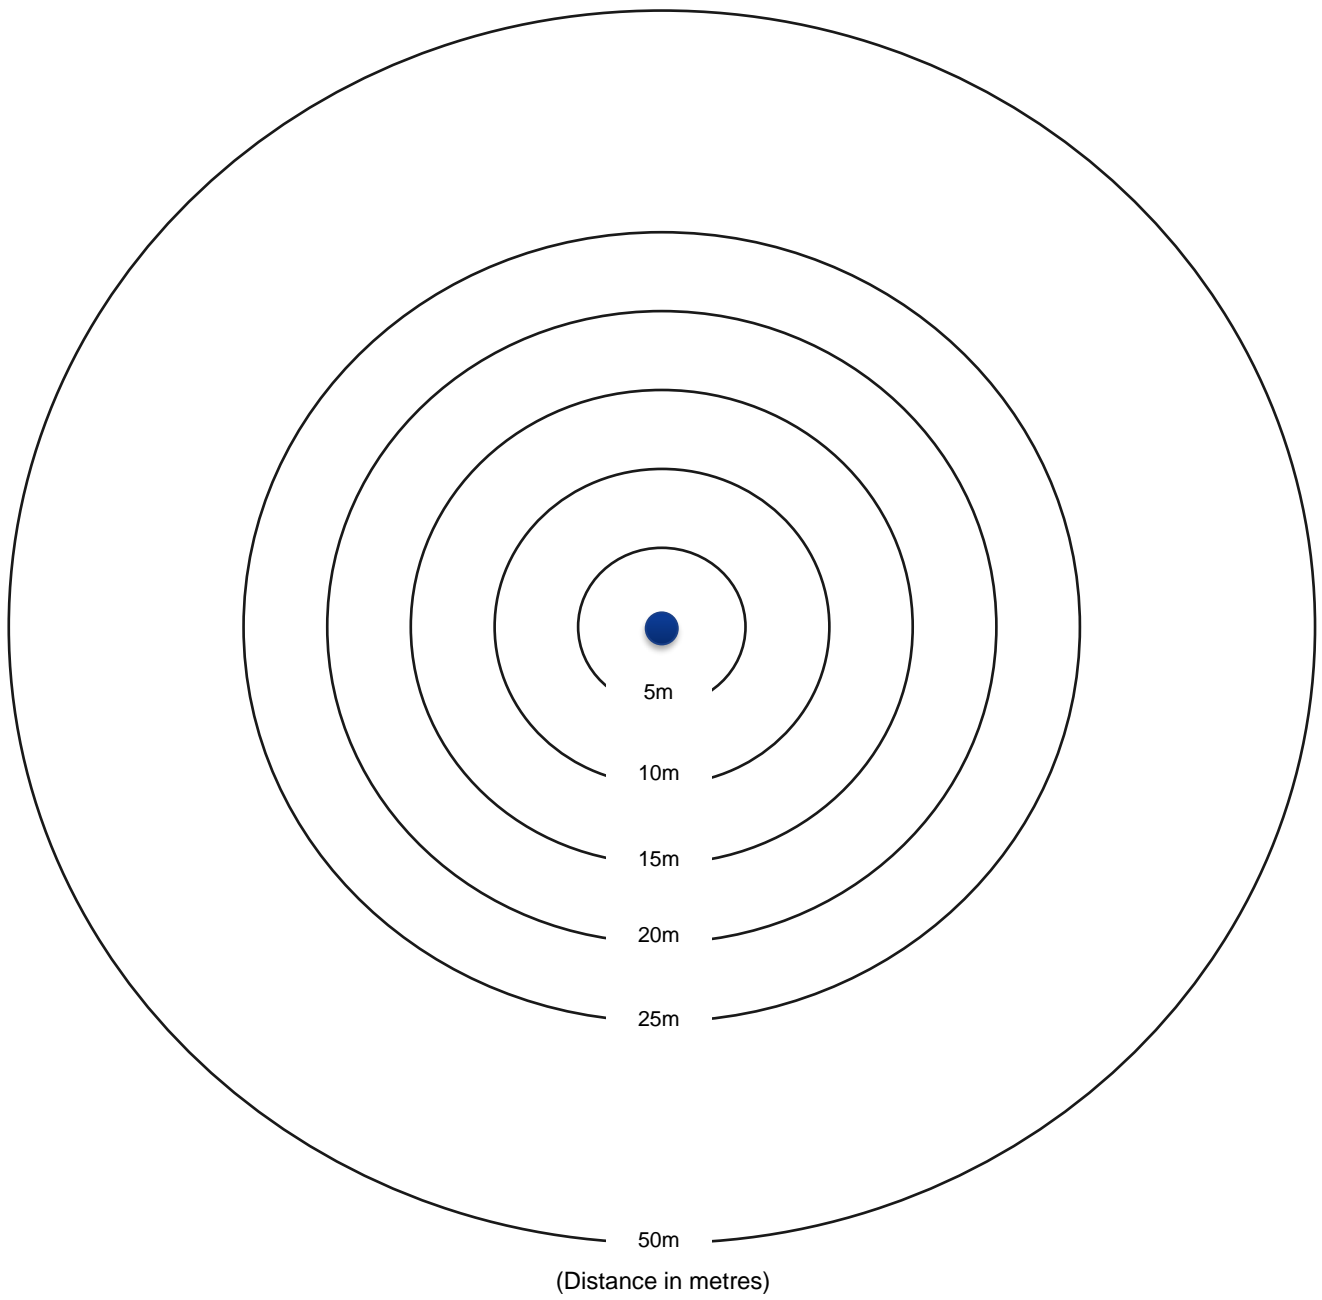

Protected work of Class 1 means any shop, room, workshop, railway, magazine or store or receptacle for explosives, depot for flammable liquids, furnace kiln or fire, occupied by or used by the occupier of licensed premises, or if the occupier or user thereof gives his consent in writing to the same being considered as included in the protected works of Class 1, and also any highway, street, public road, public thoroughfare, or open place of resort for the public or for persons carrying on any trade or business, and any canal, navigable water, dock, wharf, pier, jetty or reservoir.

Protected work Class II

Protected work of Class II means any dwelling, shop, room, workshop, railway, magazine or store or receptacle for explosives, depot for flammable liquids, furnace, kiln or fire, which is not included in protected works of Class I, and any other factory, church, chapel, university, college, school, hospital, town hall, public institution, court of justice, theatre, covered market, building wherein persons are accustomed to assemble or public building.
