Address:	SOUTH AUSTRALIA
Date workplace entered:	19/01/2023 12:00:00 AM

I guang zhao Chen am of the opinion that the PCBU has contravened the WHS legislation relating to:		
Contravention	More information	Was the contravention rectified?
Not maintaining safe systems of work	Workers at PC,PACKING,CKF ,CASES, and DC don't have enough staff, which results in a huge stress and an overwhelming workload for existing workers, It would be better if the PCBU can ensure adequate workers and provide them with better training courses.	No
Not maintaining a safe work environment	Workers at PC, PACKING, TC and inbounding areas of DC areas are reporting the working environment is very hot due to poor air condition and ventilation system, especially during the summer, it would be better if the PCBU can improve their air condition and ventilation system.  Workers also report too much seasoning dust in the PC line, around the machine (the machine is located on the right-hand side when you enter the PC area)	No

<p>Not maintaining safe plant and structures</p>	<p>Workers at PC,CE,CKF report the corridor floor is slippery after the PCBU painted the floor, at least 4 workers have been felling down onto the floor multiple times, especially in the area between WASTE HALL and PACKING HALL, when there's water or oil spilled on the floor, it would be better if the PCBU can upgrade the floor.</p> <p>Workers also reported that the upstairs platform at CE is slippery,</p>	<p><b>No</b></p>
